## GESAMTVERMÖGEN

## REGELMÄSSIGE ZAHLUNGEN

Diagram illustrating a neural network structure. The input layer (top) consists of 10 nodes, with the first 9 nodes labeled 'pro' and the 10th node labeled 'HUNGEN'. The output layer (bottom) consists of 10 nodes, with the first 9 nodes labeled 'HUNGEN' and the 10th node labeled 'pro'. The diagram shows a feedforward connection from the input layer to the output layer.
